RE: FOXCOR's Professionalism
Harrah's Hotel and Event Center Expansion
12305 150th Road
Mayetta, Kansas

Dear John:

I just wanted to take this opportunity, as we are nearing completion of the Harrah's casino Hotel and Event Center Expansion, to express our sincere gratitude with respect to FOXCOR's dedication and professionalism on this project. We are pleased with Mr. Chuck Montgomery and his associates in their genuine concern for quality and adhering to the contract documents and specifications set forth. In many instances we do not have the pleasure of working with clients who pay close attention to quality assurance and quality control with regards to soils and materials testing on the projects we work on together. Chuck has always listened to what we have recommended when situations have presented themselves and maybe have not been so favorable for the general contractor. In addition, when these situations have presented themselves, Chuck has exhibited extreme professionalism in making quick and timely decisions, which to his credit have saved time and money in preventing the project from being halted. I would also like to express our pleasure in working with Charlene Montgomery as well. It has been her scrupulous ability to detail and paper work that reports and invoicing have been submitted in timely fashion to the owners. We appreciate the opportunity to develop a good rapport with FOXCOR and being considered a part of the team. In the future, if we can be of service in any way we would like to have the opportunity to work with FOXCOR again on future projects.

Respectfully submitted,

GeoSystems / KLEINFELDER
